Decisions as to Costs in International Arbitration Shanghai, 3 March 2016

12:30pm to 6:00pm (including registration and lunch)

Overview

The ICC Commission on Arbitration and ADR's Task Force on Decisions as to Costs is releasing a new Report. This is the Commission's latest initiative to ensure that ICC arbitration continues to be a viable and attractive form of dispute resolution for its users.

The objective of this Report is to inform users how arbitral tribunals may allocate costs with a view to controlling time and costs effectively and to assist in creating fair, well-managed proceedings which meet the expectations of users.

The Report identifies ways in which tribunals and parties might use costs allocation powers to promote cost effective and efficient conduct of proceedings, clarifies the variety of considerations that tribunals take into account in assessing reasonableness and apportionment of costs, and discusses other costs issues arising out of third party funding, success fees and the treatment of settlement offers. In compiling the Report, the Task Force examined costs allocation decisions made in arbitral awards arising out of the ICC International Court of Arbitration and eight other arbitral institutions, as well as the approaches taken in various national systems and laws. This research is included in Appendices to the Report.

This half-day conference on the eve of IBA Arbitration Day will serve as the Asia launch of the Report, and will gather a panel of international arbitration experts to discuss two pertinent issues arising out of the Report –the various considerations that an arbitral tribunal could take into account in making decisions on the allocation of the costs of the arbitration, and the use of costs decisions as a case management tool.

OFFICIAL CORPORATE SUPPORTER

International Bar Association

the global voice of the legal profession

The **International Bar Association** (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations and law societies. The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of over 55,000 individual lawyers and almost 206 bar associations and law societies spanning all continents. It has considerable expertise in providing assistance to the global legal community as well as being a source of distinguished legal commentators for international news outlets.

Grouped into two divisions – the **Legal Practice Division** and the **Public and Professional Interest Division** – the IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information. Through the various committees of the divisions, the IBA enables an interchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of business law around the globe. Additionally, the IBA's high-quality publications and world-class conferences provide unrivalled professional development and network-building opportunities for international legal practitioners and professional associates.

Arbitration Committee overview

The Arbitration Committee focuses on laws, practice and procedures relating to the arbitration of transnational disputes. Through its publications and conferences, the committee seeks to share information about international arbitration and promote its use and improve its effectiveness.

Arb40 Subcommittee overview

Following the success of recent symposia hosted by the Arbitration Committee aimed at young practitioners coinciding with the IBA Annual Conference in Tokyo, Boston and Dublin and the Arbitration Day Conferences in Stockholm and Bogota, this initiative reflects the Arbitration Committee's aim of engaging more actively with the younger members of the arbitration community. It is inspired by the success enjoyed by the IBA's Young Lawyers Committee established in 2004 which has enabled young lawyers to join the association and become active and engaged in its various committees, groups and initiatives.

The Arb40 Subcommittee will leverage the wide reach of the Arbitration Committee's membership to provide a platform for the younger members of the global arbitration community to meet, exchange ideas and learn from peers and more experienced practitioners. The Arb40 subcommittee will become one of the permanent subcommittees of the Arbitration Committee. In addition to organising symposia to coincide with the annual IBA and Arbitration Day conferences, the Arb40 subcommittee will enjoy a broad mandate to organise other standalone events and training seminars, establish task forces dealing with issues of specific interest to young practitioners, and to educate practitioners on the use of the IBA's rules and guidelines.

Asia Pacific Regional Forum overview

In addition to offering an unrivalled opportunity to establish contact among lawyers within and outside the region, and with acknowledged experts on different areas of law, specialist Forum activities provide an unparalleled opportunity to keep abreast of legal business developments in the region.
